Traumatic Brain Injury Month
The Right Step, Inc
Provides Survivors Support and Opportunity

In the time it takes for most to stride across a room, it happened; A previously unimaginable event with often catastrophic results. After the tests, the parade of physicians and therapists, second opinions and the realization that life has forever changed, the survivor of Traumatic Brain Injury (TBI) is released into the care of family or friends with hope that they will find a re-entry point that might resemble normalcy. The struggle to build an accommodated life is ongoing.

The Right Step, Inc offers TBI survivors and their caregivers unique opportunities to build new relationships, experience success and develop physical, emotional and mental strength. This happens through participation in therapeutic riding programs. The horses, too often underestimated for their intelligence and perception, connect with every rider. That bond forms quickly and is the foundation for healing.

The Right Step, Inc is a PATH International Premier Therapeutic Riding Program located in Littleton. Their certified instructors and highly trained volunteers work with every rider to help build confidence and enhance physical and cognitive function while introducing TBI survivors to a new kind of success and fun!

Qualified staff selects a horse for each rider from a small herd of specialized mounts. Horses range from ponies to retired champions and each brings their unique insight to the riding experience. Riders of all abilities are accommodated. **The Right Step** team assists with mounting, balance, stretching, strength-building, communication and riding instructions with exceptional attention to safety throughout each riding experience. The fun, well it comes naturally.

Participants discover new skills, develop supportive relationships with staff and horses and find respite from the daily challenges that has become part of their changed lives. To learn more about specific successes, scheduling and program information, please contact **The Right Step, Inc** Program Director Sheryl Clossen at 303-731-9057 or xsap@aol.com. Discover the healing power of horses!!
